

PONTUS GRANDIN

PROFILE

Software Developer with a bachelor's in computer science and hands-on framework development. At my current role, I build both a proprietary web framework and the SaaS dashboard that runs on it, specializing in JavaScript development. My current focus includes implementing secure LLM integrations and smart automation protocols to expand the framework's capabilities.

LANGUAGES & ADDITIONAL SKILLS

- **Swedish** (Native)
- **English** (C1 – Fluent)
- **Driving License** (B-type)

CERTIFICATIONS

W3Cx: Introduction to Web Accessibility (EdX) | 2023

WORK EXPERIENCE

CloudBackend | Software Developer | September 2025 – Now

Advanced agentic automation: Designed and implemented an Edge Model Context Protocol (MCP) server running client-side in the browser, successfully bridging LLM capabilities directly into our web framework.

Optimized dashboard performance by migrating legacy REST API endpoints into a unified pagination system using JavaScript, significantly reducing login latency.

EDUCATION

Bachelor of Science in Computer Science

Linnaeus University, Växjö/Kalmar | 2022 – 2025

Relevant coursework: JavaScript/TypeScript, Database Management, API Development, Docker, Web Accessibility, Git

W3Cx Certified in Introduction to Web Accessibility

TECHNICAL SKILLS

- Frontend & Web Development**
- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
 - **Frameworks/Libraries:** React.js, Next.js, Express.js, Tailwind CSS
 - **Web Standards:** RESTful API design, GraphQL, OAuth 2.0, JWT, Web Accessibility (WCAG), SEO (Search Engine Optimization)
- Backend & Databases**
- **Languages:** TypeScript, JavaScript (ES6+)
 - **Databases:** PostgreSQL/MySQL, MongoDB
 - **API Development:** Node.js, Express, GraphQL, REST
- DevOps & Cloud Technologies**
- **Version Control:** Git
 - **Containerization:** Docker, Docker Compose
 - **CI/CD:** GitHub Actions, Gitlab Pipelines
